

HPE CloudPhysics

Increased visibility & understanding

ENABLING WELL-INFORMED DECISIONS

With no hardware, no software, and no maintenance, effortlessly monitor and analyse IT, estimate cloud migration costs, and establish a virtual environment.

Say goodbye to guesswork and elevate your planning and procurement with data-driven insights in mere minutes.

Key benefits include

Eliminate guesswork

Collect data, spot opportunities, and simulate right-sized migrations.

Simplify cloud workloads

Tailor workloads configurations and easily test cloud migrations.

Informed IT budget

HPE CloudPhysics offers insights and collaborative solutions tailored to you.

Speed & agility

Onel ensures a seamless setup of CloudPhysics, quickly delivering insights.

15 mins

to receive insights, without installation or maintenance.

80%

reduction in cloud readiness assessment time.

50%

less costs in optimising resource allocation.

Roadmap to maximise infrastructure ROI

Onel and HPE CloudPhysics

Onel has certified consultants who are technically brilliant in implementing and managing HPE technology powered by Intel®.

Book a session with an Onel expert to set up CloudPhysics on your environment.
